GOVERNMENT 5-STAR SAFETY RATINGS

Overall Vehicle Score

Not Rated

Based on the combined ratings of frontal, side and rollover.  
Should ONLY be compared to other vehicles of similar size and weight.

|                                                                                                                           |                      |           |
|---------------------------------------------------------------------------------------------------------------------------|----------------------|-----------|
| Frontal Crash                                                                                                             | Driver Passenger     | Not Rated |
| Based on the risk of injury in a frontal impact.<br>Should ONLY be compared to other vehicles of similar size and weight. |                      |           |
| Side Crash                                                                                                                | Front seat Rear seat | Not Rated |
| Based on the risk of injury in a side impact.                                                                             |                      |           |
| Rollover                                                                                                                  |                      | Not Rated |
| Based on the risk of rollover in a single-vehicle crash.                                                                  |                      |           |

Star ratings range from 1 to 5 stars (★★★★★) with 5 being the highest.

Fuel Economy & Greenhouse Gas Rating (tailpipe only)

5

1 10 Best

This vehicle emits 369 grams CO<sub>2</sub> per mile. The best emits 0 grams per mile (tailpipe only). Producing and distributing fuel also creates emissions; learn more at fueleconomy.gov.

Smog Rating (tailpipe only)

5

1 10 Best

Actual results will vary for many reasons, including driving conditions and how you drive and maintain your vehicle. The average new vehicle gets 29 MPG and costs \$8,500 to fuel over 5 years. Cost estimates are based on 15,000 miles per year at \$3.30 per gallon. MPGe is miles per gallon equivalent. Vehicle emissions are a significant cause of climate change and smog.
